LOVE the little prince but this edition is horrible!

By Kate Breuer

I purchased this to practice my Spanish but if the Spanish is anywhere as full of mistakes as the English part of the book, it is no use for studying. The drawings are horrible. Yes, they are cute, but they don't get the story across.

For example: The narrator saw a documentary as a child and then drew a picture of an elephant inside a boa. Grownups he shows it to ask him why he drew a tophat. In the original version of the book (I have the original version) this image actually looks both like a snake bulged up from eating the elephant and a top hat. In this version, the snake has a cute comic face, stripes and all that and looks nothing like a top hat. So if you look at the photos, you don't understand the story. Sad to see this wonderful story destroyed like this...

I attached two photos. One where you can see the original drawing next to the one of the book and one of the whole page in the book, so you see what it's actually about ;)

Si trae las ilustraciones

By jose e.

Acabo de recibir este libro y es mentira que no trae las ilustraciones, las trae todas

No drawings. Sin dibujos.

By Enrique

This edition of The Little Prince in Spanish has no the drawings that are essential to understand and enjoy the text. It needs a warning alerting to possible buyers about that.

Esta edición de El Principito en español carece de los dibujos que son esenciales para comprender y disfrutar la obra. Debería advertirse a los posibles compradores acerca de tan importante omisión.
