Are you a Mini Maniac ?

By Cedric LEBOCQ

In fact, if this is the case, you should buy this book. The contents is a bit old, but the Mini is a 40 years old ladie. More generalist than "Tuning the A-Series Engine", you will find great advices for building an entire Mini for competition or road use. You will find, what exist, what works and what doesn't work.

Perharps it lacks graphs (in comparison to the recent Tuning the A-series Engine) to explain some facts.
good buy, a must have...
