I'll Take the High Road: an education in flying

By Charles Steffens Jr

I first read this book as a teenager shortly after its publication in 1939. It reinforced my interest in aviation. After 70 years and 3000 hours as a private pilot/airplane owner I read it again. My interest in aviation continues. I consider this book and its companion book "Stick and Rudder" also by Langewiesche to be fundamental reading for those who have an interest in flying small aircraft.

It is written in an easily read conversational style that takes the reader along with the author as he fulfills his desire for flight.

He tells of travels in small airplanes and imparts the wisdom learned from each of his experiences. At times he seems willing to accept challenges a bit more aggressive than I would.
