Introduction:

Why Should You Read This?

If guy after guy stops calling you 'out of the blue', then this book is for you.

Hint: It's not 'out of the blue'- there are very specific reasons why they quit calling you and I'm going to show you how to stop the behaviors that are turning them off.

If you've had more than one guy 'shut down' and quit talking during a disagreement, then you need to read this.

If you 'fight a lot' with every guy you date... maybe you're not the unluckiest woman on the planet that somehow 'finds all the jerks'...

Maybe it's YOU.

The fact is, there are 5 very common things that women do unknowingly that really turn men off... not only turn them off but have them running the opposite direction.

Most of these you have no idea that you're doing... In fact, you probably think that it's part of "playing the game", when in reality you're systematically turning him

off one mistake at a time.

A lot of women think they know exactly what they're doing when it comes to dating and reeling in the guy they want... but a lot of times the results speak for themselves.

The
Next 30 Minutes Will Reverse Years of Frustration...

This
will only take you about 30 minutes to read... but it will help your dating life out tremendously.

I've taken the biggest mistakes that women make with us guys, and boiled them down into clear explanations that you'll instantly "get"... and it will become very clear where your problems are.

Poor advice for women...

By Marion Loxsley

I'm a dating coach and found this book advising ways to 'get' a man that isn't compatible rather than helping women find a man that is right for her. This book teaches women to silence their values and compromise their healthy boundaries which goes against loving yourself. I agree with only a few of his advisements. The others cast the blame entirely on the women's 'mistakes' not owning that men need to put effort fourth in relationship too. The chapters on the type of commitment phobic men do have accurate 'excuses' of why these men fear commitment, but never address that these types of men are unhealthy choices for women wanting healthy relationships with good communication.

These books are for women chasing the 'ungettable' get... Think about the life you will have when you 'get' these challenging commitment phobic men. It will always be an uphill battle of forgoing your own wants and needs to not scare this man off, a fantasy connection. Look for better men instead of warping yourself to unhealthy ones who can never give you what you want or are incapable of that capacity.

There are better books, keep searching ladies.

An advice book that does not leave out the details

By Aaron S

I picked this up on a whim. I think most guys are curious when they see strategy books for women on getting guys. Most of the time we don't really want to admit we find the subject interesting; I'm past that and I have no problems admitting it.

I find the whole dating game really fascinating from both sides of the equation. I've checked out other female strategy for getting guys and I've always been a bit let down by the lack of details.

Sure it's OK to say play hard to get and all of that but what else? I mean a lot of those books seem to be saying stuff you could pick up anywhere for free.

What I liked about this book was that I really felt that the author was relying on his own experiences or those he knew well. It felt more like I was talking to a wise friend who had lived it and was just relating his carefully considered views.

I came away with a pretty good feeling about the way women could use this info to get closer to the guy they're interested in. I know I would have reacted in a pretty well similar way to some of the mistakes girls were making in the book. I also realize that the kind of things he was recommending women do to get closer to guys would have worked on me. I guess it does come down to genuine mutual feeling in the end but sometimes women make mistakes that leave them wondering what they could have done different to make it work.

I think this guy would be worth listening to. He seems like he has lived it and from one guy to another, I really do think he's on the right track with the advice he offers

Good Advice

By EB

I think this is good to know a man's point of view. It really makes you look at the big picture in what you are looking for and how not to mess it up
