OMEGA #2: BAGGAGE (M/M WOLF SHIFTER ROMANCE) BY EILEEN GLASS PDF

Liam doesn't have a plan, but he's got the basics covered. As far as food, shelter, and clothing are concerned, he does right by his omega. But still the smaller wolf flinches from him, never speaks. And every mild suggestion is obeyed to the letter. Something's not right, he knows that, but maybe it's for the best.

Skye wouldn't stay if he learned the truth.

Slow Seduction

By Deirdre

You just don't know what is going to happen. You assume one thing and then the train derails. If want things to work out for these two, but they make it so difficult for each other, by not communicating truthfully with one another. They were raised drastically different from one another but they very strong attraction they feel for one another has Liam the Alpha doing something he never in his life imagined doing. Going against the traditions and expected behavior of his pack by deciding to keep the Omega, Skye for himself.

Now comes the difficult part, trying to convince the terrified Omega Skye that his intentions are honorable. Skye is confused by his fears which are at war with his desires. His instinct to automatically try to escape and run as fast and as far as he can is deeply ingrained. These responses are automatic. but the strong Mate Pull is playing havoc with both of them. This is a sensual story, but it is frustrating too.

All I have to say is that Eileen Glass had better have Book 3 ready for release soon. I need to know what happens. Especially with Liam's pack and his family (his Mom is so going to get him!). Come on Eileen.....

Enjoying this so far!

By Turner

I'm really enjoying this so far. Loving Skye and Liam's personalities. There are a few grammar issues here

and there, but overall it doesn't take away from the enjoyable story. The only writing style issue that kind of irks me is that they often lead sentences with verbs and that can confuse reads as to whose action it is. That quirk to their writing style makes it feel a bit like reading an RP chat log without the screen names to eliminate confusion. I figure I'll keep reading until I either get used to it or stop when it gets too annoying. Otherwise, I really enjoy this slow burn story and love their ABO shifter universe approach. I might check out their other series to see if the verb lead is a quirk for this book or is just the author's writing style. I'm also enjoying how they structured the books. I'm not looking for free or cheap books; I'm looking for authors I can enjoy and support. These mini books are a great way to test out an author and if you enjoy them, be able to continue to support their work. (Though it is nice to know there are quite a few more to pick up as I get into the series...)

Complex characters deep emotions

By Sierra

Oh this series/serial just keeps getting better. My heart just aches for both Skye and Liam as they feel their way with each other. I've just fallen in love with Liam, the big warrior with the tender heart. Skye is so lost and scared and I just want to hug him! The guys are finally off the road and at the cabin and it's time to settle in for a while and learn to be with each other. The heat is such an interesting complication to their relationship and Glass teases the characters along with it. These are finely crafted characters in a deep situation. The author puts us right inside their heads. Liam is radiating tension and protectiveness in this installment and I felt my neck tensing up reading some of the scenes. I loved the piece where they were wolves; it was fun but also revealed so much about each of them, especially Skye. The ending comes at a natural break rather than an annoying cliffhanger. I can't wait for the next one to come out. I hope that they will get bundled together when they're all out because I'd love to buy them as a single unit.
