How dare to ship an item like this by Evergreen Violin

By confiture

The book was arrived damaged - the box was not damaged: not just the back cover, but the last 25 pages or so along with 'dented' edge. How dare to ship an item like this by Evergreen Violin ... I didn't pay a used book price for this. By flipping pages, I also noticed that the binding condition was poor: some pages looked and sounded like they were ready to come off, granted that it is a very thick book and a dry weather. I have nothing against the author: I have his "other" two books, which I am fond of. For an expensive - and comprehensive - book like this, I want the condition to be close to perfect. Very disappointed.

If you want to understand violin....

By Justin C. Williams

Read this book. I've read almost every single book written on violin technique and it is by far the most comprehensive and helpful. The price is nothing compared to the priceless insights this book has. Buy his other book-basics-as well.
