The story plot within itself was good

By Reader Views

Stuffed is about three teenagers who watched a movie about the dangers of fast food, particularly a place named Frankie's (Super size me, anyone?). While at first the main character, Ian, doesn't take to the idea of giving up his fries, his friend Julia jumps right into the idea of fasting from fast food, and her doormat boyfriend and Ian's best friend, Oswald, agrees with her (although we all know he's craving a double cheeseburger). But after Ian decides that he could incorporate the anti-Frankie's buzz with his mass

communication project in computer science, he writes a letter begging people not to eat at Frankie's on Friday the 13th. He sends this message to forty of his friends (via MSN) and asks them to send the message to forty of their friends.

By the next day, the message has crossed the Atlantic Ocean and is all over America. When Ian gets home, he has more than 600 emails, mostly in support of his project. But one of those emails was definitely not supportive. It was from Frankie's lawyers, telling him that if he continued to spread the message, he would be sued. But the lawyers didn't know something--Ian's parents are lawyers too. They schedule a meeting, and Frankie's suggests a bribe: If Ian calls off the boycott, Frankie's will supply a free lunch to everyone at his school on Friday the 13th. Ian and Julia can't believe their ears, and say they will decide later. This splits the school in half...and the drama continues. The story ends with unsurprising results and an unlikely, but expected romance.

The story plot within itself was good, but the beginning was hard to get through and the middle seemed incomplete, although I must say, the lawyer humor was pretty funny. I would recommend "Stuffed" to kids beginning middle school, and is a great way to show kids that one person can make a difference.

Good, but not great

By Sarah Paraszti

These kids watched a movie on the dangers of fast food in health class and people responded to it and a girl said she will never eat there again so Ian sent out a email trying to get people to stop eating at Frankie's. Just like my title, I must say Stuffed was pretty good, but not great. The whole point of the book was about boycotting a restaurant. I just wish it were more exciting. The best part of the book was probably when Ian sent out the e-mail that over seven hundred people responded to. So to quickly summarize this book basically Ian's class watches a documentary on the dangers of fast food so Ian decided to boycott a restaurant called Frankie's, so he sends an email about it and he gets over seven hundred responses.

The lawyers of Frankie's restaurant got concerned when they first heard of the boycott. The lawyers threaten Ian and his friend to stop the boycott. Ian has to convince his friends that the boycott is a good idea. Ian's parents are lawyers and Frankie said that if he spread the message he would be sued. Frankie's doesn't know that they set up a meeting and suggest a bribe for free lunch for him and everyone at school. I do not recommend this book it is boring and mediocre.

Pretty good book

By jacob

The book Stuffed by Eric Walters is pretty good and it is interesting because of the conflict between characters, the message, and the whole topic of the book in general. The conflict between characters is funny because there's a trio of friends, 2 boys and a girl, and the girl and one of the boys start dating and it turns out to be that the boy is pretty whipped by his girlfriend. Also the message because it's saying that humans shouldn't eat at fast food restaurants every day of the week, and it shows how unhealthy their foods are and what they do to people. The whole topic is good because the idea of everyone in the world bonding together over something that one child did and not eating at a unhealthy restaurant for a day. Anyone could read this book because It's not really directed towards any certain age group. Any age group could understand this book and get involved in it!
