Good overview of Revelations

By Roger Marks

The premise of the book is found in a quote from Professor William Milligan of Scotland, who suggested, "The Revelation of St. John consisted of a series of visions, each in the form of a panorama, not occurring in historic succession, but as repetitions of the same events in entirely new settings from different angles, each having a a distinctive object in the various presentations." Morris does a good job of explaining this method of interpreting the Book of Revelation. Another good book that explains this view is More than Conquerors by William Hendricksen.
