Yes!!!!

By Robin Scott

Helped organize and conceptualize every necessary piece of info for the certification examination! Practice tests were amazingly helpful. They were a great simulation of the test structure and wording of questions.

1 of 1 people found the following review helpful.

A good buy

By Sarah

This is a great book. It can be a bit wordy or overwhelming at times but that's really due to the vast amount of material to be learned, and is not specific to this book. It explains the material thoroughly and clearly. I bought it for a specific class but I've kept it well beyond that class because it's a great resource to be able to go back and "refresh" your knowledge.
