From the Publisher

A wife's greatest accomplishment may be to finally understand what it's like to be a husband. Sometimes a woman looks at the man she married and wonders, Who is this man? What motivates him? Why isn't he more responsive to my needs? Has he changed or did I just not understand him in the first place? What Husbands Wish Their Wives Knew About Men answers these questions. And more. The author of the best-selling book, *The Man in the Mirror*, now shares his insights about men with women, giving them information about their husbands they've never had before. Patrick Morley writes, I work with men as a calling. And I can assure you that the number one problem men face today is that their marriages are not working out the way they're supposed to. That's why I wrote this book. My goal is to show a woman what a man is really like?what he's feeling, what he's thinking, and what he's going through. And it would be great for a man to be able to read this book and say, Yes! He's articulating exactly what I'm feeling. Honey, would you please read this book so you'll understand me better?' This, then, is the women's edition of *The Man in the Mirror!* Based on years of extensive research, *What Husbands Wish Their Wives Knew About Men* outlines what a man thinks, feels, and needs. Through its pages, a woman can learn about the forces that have shaped her husband?his father's expectations and his experience with his peers. She'll discover why a man's greatest need is to be significant?to find meaning and purpose, to make a difference, to actually accomplish something with his life. She'll learn how he struggles to handle work, success, money, time, and temptation. Best of all, she'll learn what a man really needs from his wife. And she'll find practical guidelines for effectively communicating and resolving conflict. At the close of each chapter there is a summary called *How You Can Help Your Husband*. And, for those women who want to share the book with their husbands, there is also a section titled, *Thoughts for Husbands*. *What Husbands Wish Their Wives Knew About Men* promises to help women understand their husbands. It will help wives build a more satisfying marriage through understanding and appreciating the wonderful differences between a husband and a wife.

What Husbands Wish their wives knew about Men

By A Customer

This book was helpful to my marriage as we men and women see things from such different perspectives. Part 1 deals with many of the obstacles we face as men in today's society. Part 2 sheds light into the difficulty men have in relationships and how to overcome some of those barriers.

Overall this book was tremendously insightful and refreshing.

Spiritual Battles of the Modern Man

By Rebecca of Amazon

"*What Husbands Wish Their Wives Knew About Men*" brings a deeper understanding to issues men face on a daily basis. Patrick M. Morley takes an especially honest look at the lives of men. He shows how the influence of their father affects how they treat the woman in their life. He explains how men must deal with lust and anger and focuses in on topics like "Why Men are Preoccupied with Work." Some of the other chapters include:

What is it that Your Husband Wants?

What's Troubling Your Husband?

The Six Persistent Temptations

Companionship - What a Husband Needs from His Wife

Physical Intimacy - What Else a Man Needs from His Wife

Resolving Conflict

Perspective - Why Your Husband May Not Be as Bad as You Think

For the most part this book doesn't have a lot of practical suggestions. It is more a revelation of what men are thinking and feeling. There are a few good ideas like establishing a budget. Wives are encouraged not to add additional pressure to their husband's lives by trying to maintain a big lifestyle. There are a few ideas for better communication. The chapter on losing weight to be physically attractive may or may not appeal to women reading this book. Men also gain weight as they age but this topic is not really discussed.

At the end of each chapter there is a "thought for husbands" which seems more useful if the entire chapter has been read. While this book seems designed for women, I think the author also had husbands in mind and the book may be better when read together. While some men may feel this book stereotypes men it seems the author wrote this book after conducting two years of extensive research, which included personal interviews and surveys.

After reading quite a few books on men this book dealt more with spiritual concerns and introduced me to some ideas I had not considered before. This book is mostly designed for Christian women seeking to encourage their husbands to be godly men.

Morley has done it again

By A Customer

Pat Morley has again written a concise, insightful book to help us live our everyday lives in exceptional ways. I plan to let my husband read this book in a couple of months-- he'll want to thank Pat Morley for putting a man's thoughts and needs into words.
