What this book is all about ? Excerpts from When Shall We Meet Again ? ----- The human life is akin to a river. None can foretell its direction. Rivers are born small. They get bigger as they advance. Same with humans too, both spiritually and physically. The rivers collect sand, stones, leaves, sludge and whatever they tread in their paths. Humans too carry with them their upbringings, their education, the habits and style of people around them, the culture of their places and most importantly the memories of life events and their influences upon them. Rivers go through lean patches. Humans too. Rivers are sometimes very calm. They sometimes flood ; Same, with the humans. Some rivers are ruthless. They cause floods and destroy lives. Some humans are ruthless too. They get charged up and try to harm others around them. Some rivers irrigate and help in a positive way. Some humans serve and help the people around them. And let me add that clichéd sentence to this list....All rivers join the sea. And all humans merge with Him. Therefore, rivers symbolize us. They are like the human shaped deity in which we see our Gods. After all, identification is required to create oneness. And oneness is the essence of Gita.....So in rivers, we see ourselves....What's wrong in worshipping them? -----xx----- The moment Naren hugged her and they were on bed, and as Lisa felt the passion rage into her body, all her doubts about her sexuality or rather the lack of it, which had been tormenting her right from her college days, vanished instantly and she felt as if she had been liberated. Naren, on the other hand was having a liberation of the other kind. He had never felt how tender a girl's body would be -

Changed my perspective of Life & Love

By Shree Janani

Romance yet again! Given that my take on romance changed after reading plenty of beautiful books, I decided to go ahead and read this book. Thankfully, I don't regret my decision at all.

I have a soft spot for writers from my city. After all there are not many of that lot. This particular writer obviously is a hardcore Chennaite and has portrayed the beauty of the city – The lush Anna University campus and the beautiful foliage of Theosophical society.

Moving on to the important part – The story line. The summary was a bit misleading. I was expecting “a miracle worker” swamiji who would “use his powers to cure people”. Alas! there came this super cool practical and logical swamiji. Initially the characters were a bit confusing. But as the story progressed, things cleared up.

The writer has done a commendable job in handling multiple story lines belonging to each character. The shift of times lines were also smooth and easy to follow. But more than the story line, the emotions were overpowering. There was a practical connect thanks to realistic and heavy emotions – love, hurt, anger, sorrow, disappointment, helplessness and joy.

One character that is worth the mention is sawmiji. The concept of bringing in a swamiji into a romance genre of sorts may sound rather absurd. But the writer made a brilliant decision to do that in the form of a corporate trainer. After all, swamijis handling corporate aren't unheard.

It's again obvious that the writer has some insight about the functioning of IT companies, their organisational culture and the usual “corporate training programs”.

My only complaint – the editing could have been a wee bit better.

Overall, the book was neat, logical and practical.

VERDICT: Go ahead pick it up. It might even change your perspective of life and love.
